

How to Create Your ISK Web Wallet

Quick Start Guide — Compact 2-Page Edition

Step 1 — Open the ISK Web Wallet

Go to wallet.iskandercoin.com.

Step 2 — Create Your Password

Enter a secure password in the middle of the screen, then confirm it. **Write this password down and store it safely in multiple secure places.**

Step 3 — Confirm and Create Wallet

Click **Confirm**, then click **Add Wallet** to create your wallet.

Step 4 — Backup Prompt

If the system asks you to back up your wallet immediately, go ahead and complete the backup. If not, no problem — you will complete the backup later in this tutorial.

Step 5 — Rename Your Wallet

Click the pencil/edit icon next to the unnamed wallet. Type in a custom wallet name such as '**Cory Hot Wallet**' and click **Change**.

Step 6 — Copy Your Wallet Address

Use the **Copy Address** icon to copy your wallet address. **DO NOT** manually highlight and copy the address, as this can lead to mistakes. Always use the official copy icon.

★ **IMPORTANT: This is all you need to complete in order to register your wallet. The remaining steps below will be completed after you log into your member back office.**

Step 7 — Log Into Your Member Back Office

Go to manage.iskandernetwork.com and log into your member back office.

Step 8 — Verify Your Account

Enter your password, complete the CAPTCHA verification, and click **Next**.

How to Create Your ISK Web Wallet (continued)

Step 9 — Enter the Email Verification Code

Check your email for the 8-digit confirmation code. Copy the code and paste it into the verification field, then click **Verify**.

Step 10 — Navigate to ISK Wallets

Once logged in, go to the right side of the screen and select **ISK Wallets**.

Step 11 — Add Your Wallet

Click **Add Item** or **Add Wallet**. Make sure the payment type is set to **ISK**.

Step 12 — Paste Your Wallet Address

Go back to your ISK Web Wallet and copy your wallet address using the copy icon. Paste the **FULL** wallet address into your member back office.

Step 13 — Add Notes

In the Notes section, enter something recognizable such as '**Cory Hot Wallet**'.

Step 14 — Set as Default Wallet

Make sure the wallet is toggled **ON** as your default wallet.

Step 15 — Save Changes

Scroll to the bottom and click **Save Changes**. This step is extremely important to complete the setup successfully.

Step 16 — Download Your Wallet Backup

Return to your ISK Web Wallet. Go to **Settings** in the top-right corner, then select **Download Backup File**.

Step 17 — Save Your Backup Securely

Save your wallet backup file to your computer or secure storage device. This protects you in case you lose access to your wallet.

■ Final Step — You're All Set!

Your ISK Web Wallet is now fully created, connected, and backed up securely.

Pro Tips: Always keep your password and backup file in multiple secure locations. Never share your private keys or seed phrase with anyone.
